Special Issue on
Secured and Reliable Smart Grid with Artificial Intelligence Approaches

Call For Papers

A new Special Issue Secured and Reliable Smart Grid with Artificial Intelligence Approaches (http://ij3e.org/sinfo/349001) has been launched in International Journal of Economy, Energy and Environment (http://www.ij3e.org). This Special Issue intends to collect research achievements concerning Secured and Reliable Smart Grid. Novel insights as well as fundamental research on the topics are warmly welcomed. Your submissions along with your ingenious works are expected.

Lead Guest Editor

Lead Guest Editor: Ramin Faraji
Affiliation: Department of Mechanical and Renewable Energy Engineering, Alfred University, Alfred, New York, USA

Paper Submission

Potential authors are humbly requested to submit an electronic copy of their complete manuscript via http://ij3e.org/submission

Topics of Interest Include (but not limited to):

- Secure architecture and resilient communication
- Cyber-physical security information and control
- Artificial intelligence (AI) in smart metering
- Artificial intelligence applications in renewable and sustainable energies
- Secure smart metering and control
- Secure renewable energy penetrations
- Machine and deep learning solutions in smart grids
- Simulation and performance of machine learning algorithms

Important Dates
Submission Deadline: Dec.20, 2019
Publication Deadline: Feb. 20, 2020

Join as Guest Editor

For scholars who have intention to join the special issue as guest editor, please check out the link below:
